

MOBILE TREE COMMISSION**July 20, 2021**

MTC-079931-2021

1860 Reddy Street

Remove live oak tree.

Council District 2

Applicant: Mario Yow**Property Owner:** Mario Yow**Historic District:** N/A**Tree Location(s):** In front of residence at 1860 Reddy Street.**Species and Size:** Live Oak**Utility Lines:** Utility lines are present through the canopy of the tree.**Reason for pruning:**

Limbs causing damage to roof and limbs falling in yard, causing damage to items on the property.

Urban Forestry Comments:

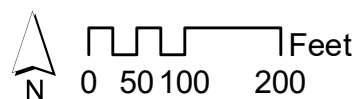

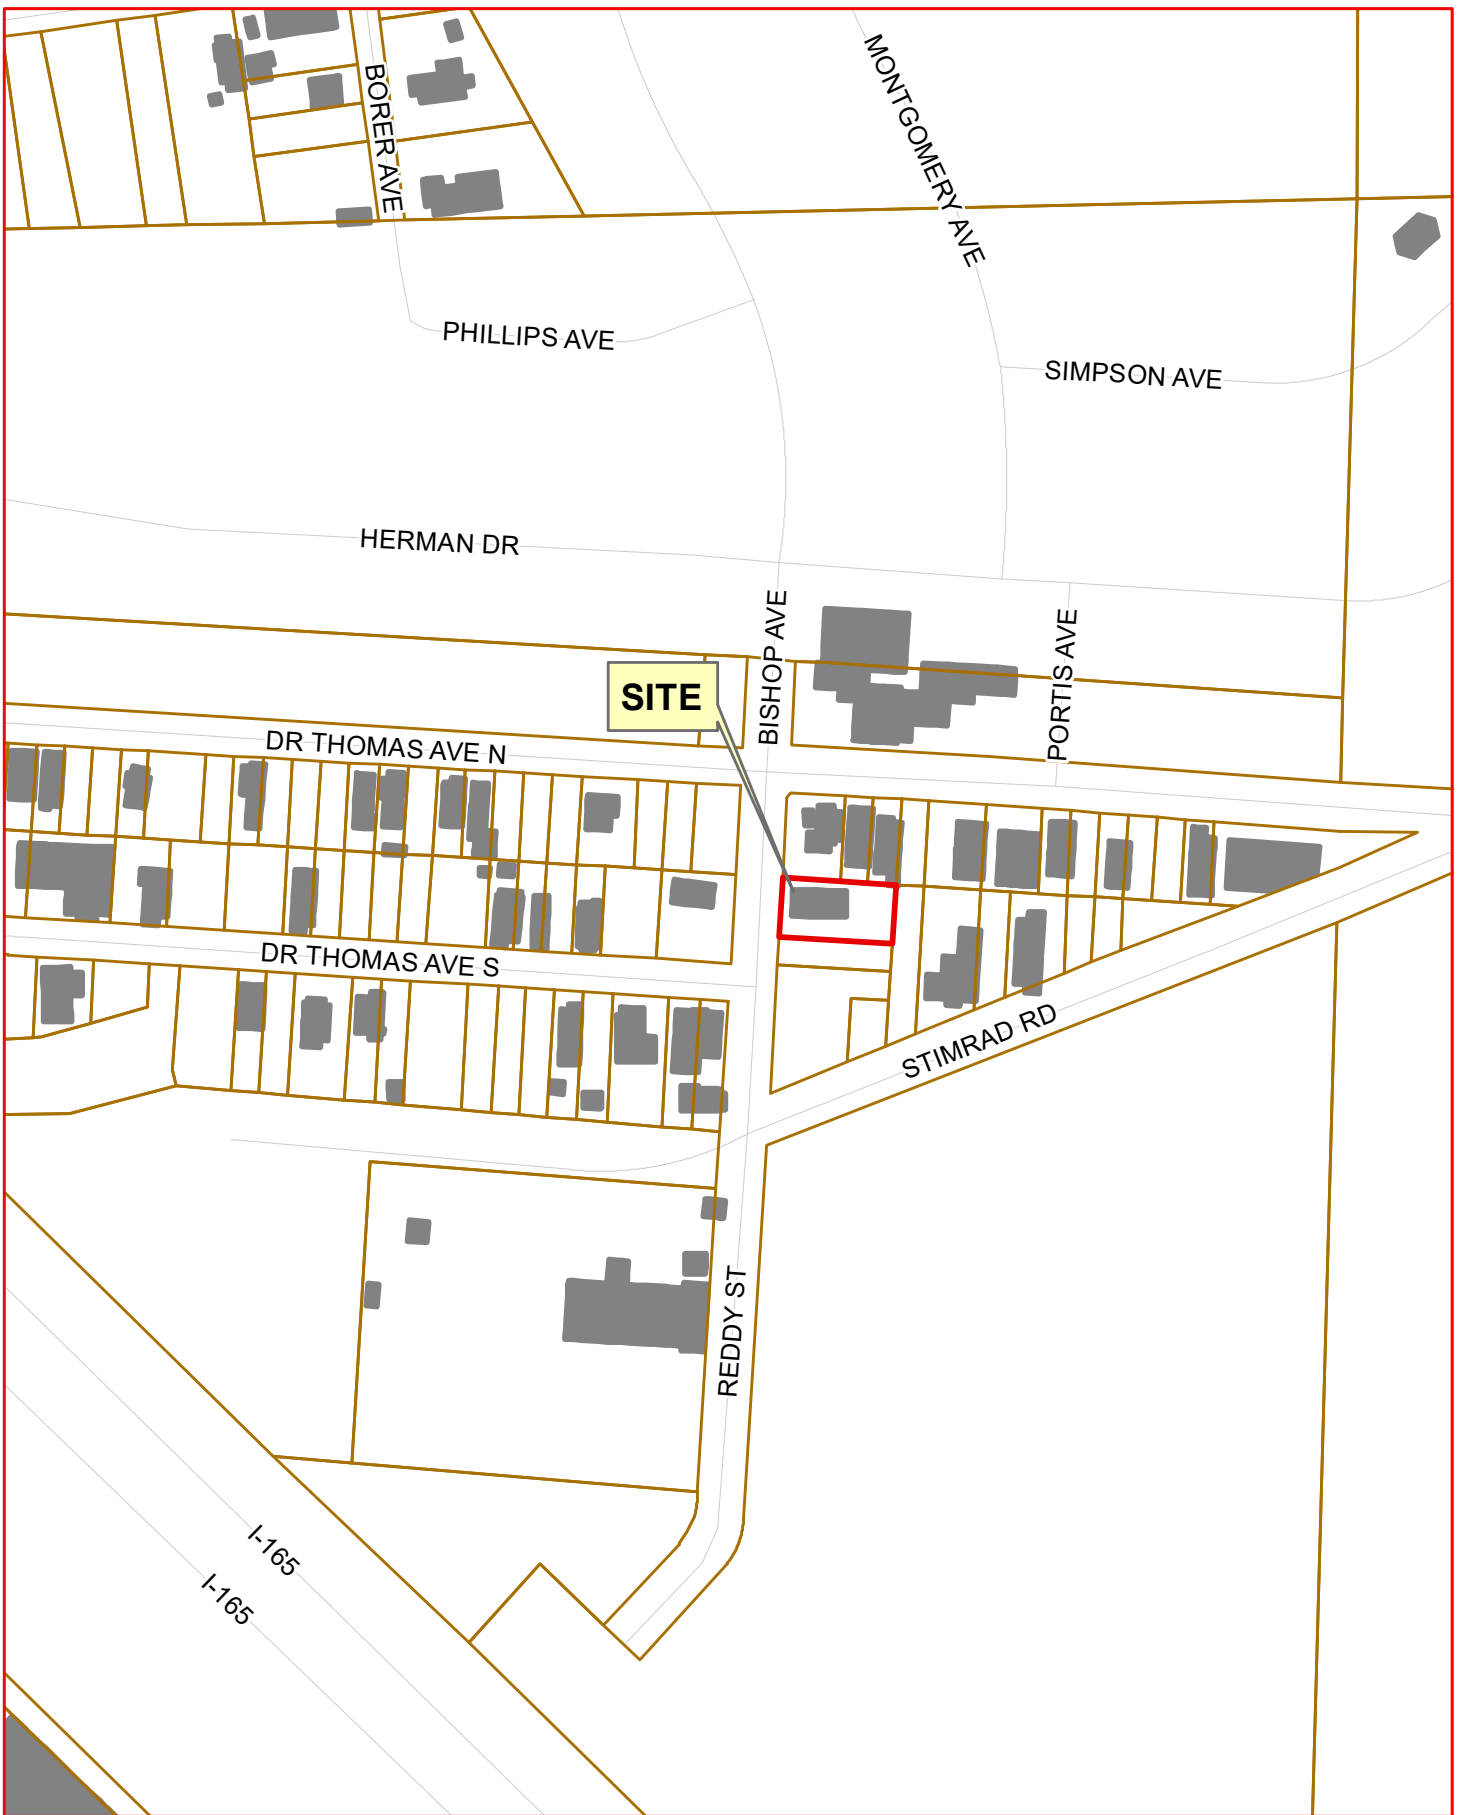

The Live oak located in the right of way in front of 1860 Reddy Street appears to be in fair condition. The tree is located curbside and appears to have an asymmetrical root system that is exclusively on the residential side of the tree. The tree has been subject to being utility pruned and will never be able to retain its natural shape.

Urban Forestry has determined that the tree is a low risk and any additional pruning on the tree shall be in compliance with ANSI A300 pruning standards. No city services are being obstructed by this tree therefore Urban Forestry cannot recommend removal at this time.

Recommendation:

If the pruning work is approved, the work should be subject to the following conditions:

1. Work to comply with ANSI A300 Pruning Standard; and
2. Work to be performed by an ISA Certified Arborist.
