Telephone: 251/208-7091

Fax: 251/208-7896

e-mail: forestry@cityofmobile.org

As they were not in bloom at the time nor did I realize the potential size they were to become. Their branches are so large that they hang over the sidewalk + into the street. Postman, joggers + walkers have to dodge them. It is also difficult to see the street from our driveway - a dangerous situation. And not being in bloom at purchase time they "turned" out to be 2 different colors + varieties as they are different sizes also. We want just to remove them completely. Thanks!

Date: September 16, 2003 Application No.: P-2003-18

LOCATION: 6008 Sprucewood Drive

Reason for request is to remove four Crape Myrtle Trees.

STAFF COMMENTS

P-2003-18

TREE HEALTH: Trees are in good health.

SITUATION: Owner no longer wants trees.

STAFF RECOMMENDATION: Staff recommends denial and that citizen allows Crape Myrtle Trees to grow into tree form, which would alleviate the problem. If homeowners would like to remove the trees at their expense and replace them with new Crape Myrtle Trees, that would be acceptable to Urban Forestry.
