

Date: May 18, 2004

Application No.: P-2004-08

LOCATION: 801 Virginia Street

TREE HEALTH: Healthy 41" Live Oak Tree

SITUATION: Proposed church improvements require undercutting existing tree. As a result of undercutting, several large limbs will have to be removed.

STAFF RECOMMENDATION: Staff recommends approval with the following conditions: 1. City of Mobile to remove limb; 2. alternative paving to be used in the drip line of the tree; 3. coordination of ingress and egress and driveway to be coordinated with Traffic Engineering, Planning, and Urban Forestry.

LOCATION: 801 Virginia Street

TREE HEALTH: Healthy 41" Live Oak Tree

SITUATION: Proposed church improvements require undercutting existing tree. As a result of undercutting, several large limbs will have to be removed.

STAFF RECOMMENDATION: As previously stated, staff recommends approval to remove limb. After speaking with Mr. Eugene Morgan, Chairman of the Building Committee for Christ Temple Apostolic Church, he indicated that the congregation did not want ingress and egress from Broad Street, and that the drawing submitted is what they want. Consideration of moving the parking to the West side of the facility was not acceptable to the congregation.
