ANALYSIS

The applicant is requesting an extension of approval for a Front Landscaping Area Variance to allow 2,435 square feet of front landscaping areas on a 94,510 square foot lot; the Zoning Ordinance requires 6,804 square feet of front landscaping area for a lot 94,510 square feet in B-3, Community Business District.

The site was recommended for rezoning from B-2, Neighborhood Business, to B-3, by the Planning Commission in April, 2011, and approved by the City Council in June, 2011. A condition of that rezoning is that the site plan be revised to indicate all required landscaping area and tree planting as being on the site, outside of the right-of-way or any required dedication area. The applicant also submitted Voluntary Conditions and Use Restrictions prohibiting the use of

the property for any B-3 use, except those uses allowed in B-2 districts and automobile and truck sales and service. A one-lot subdivision was approved for the site in March, 2011, but has since expired: a new application for such is scheduled for the June 7, 2012 Planning Commission meeting.

Since only a portion of the site is proposed to be developed, the applicant was granted the subject variance on November 7, 2011. The applicant states that a building permit for such development will not be able to be obtained prior to expiration of the variance, hence this extension request. Extensions for variance approvals are not uncommon for appropriate reasons, and further time to complete the subdivision process and obtain permits would be considered an appropriate request. However, as variance approvals are good for a six-month period, such is also the case for extensions. Therefore, the granting of a six-month extension would be appropriate.

RECOMMENDATION: Based on the preceding, this application is recommended for approval for six months, until December 4, 2012.
