[Applicant Materials for Consideration](#)

DETAILS

Location:

Southeast corner of St. Louis Street and North
Clairborne Street

Applicant / Agent:

RGH (Stephen Howle, Agent)

Property Owner:

RGH St. Louis LLC

Current Zoning:

T-5.1 Sub-District of the Downtown Development
District

Future Land Use:

Downtown

Case Number(s):

6690

Unified Development Code Requirement:

- The Unified Development Code (UDC) limits buildings to one (1) upper building sign and requires one (1) of six (6) frontage types in a T-5.1 sub-district in the Downtown Development District.

Board Consideration:

- Signage and Frontage Type Variances to allow two (2) upper building signs and a non-compliant frontage type in a T-5.1 sub-district in the Downtown Development District

BOARD OF ADJUSTMENT
VICINITY MAP - EXISTING AERIAL

The site is surrounded by commercial units.

APPLICATION NUMBER	6690	DATE	September 14, 2026
APPLICANT	RGH St. Louis Subdivision		
REQUEST	Signage and Frontage Type Variances		

SITE HISTORY

The site was previously zoned B-4, General Business District prior to the adoption of the Downtown Development District (DDD) in 2014, when the site was rezoned to T-5.1 Sub-District of the Downtown Development District.

The Board of Zoning Adjustment approved a Signage and Frontage Type Variances to allow two (2) upper building signs and a non-compliant frontage at its August 4, 2025 meeting. A 6-month extension was granted on February 2, 2026.

This site had a one-lot subdivision approved by the Planning Commission on January 15, 2026, but has not yet been recorded in Probate Court.

There are no additional Planning Commission or Board of Adjustment cases associated with this site.

STAFF COMMENTS

Engineering Comments:

No comments.

Traffic Engineering Comments:

No comments.

Urban Forestry Comments:

Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties [Act 929 of the 1961 Regular Session of the Alabama Legislature (Acts 1961, p. 1487), as amended, and City Code Chapters 57 and 65]. Private removal of trees in the right-of-way will require approval of the Mobile Tree Commission. Removal of heritage trees from undeveloped residential sites, developed residential sites in historic districts, and all commercial sites will require a tree removal permit.

Fire Department Comments:

All projects located within the City Limits of Mobile shall comply with the provisions of the City of Mobile Fire Code Ordinance, which adopts the 2021 edition of the International Fire Code (IFC).

Fire apparatus access roads shall be provided to within 150 feet of all non-sprinklered commercial buildings and within 300 feet of all sprinklered commercial buildings, as measured along an approved route around the exterior of the facility.

An approved fire water supply capable of meeting the requirements set forth in Appendices B and C of the 2021 IFC shall be provided for all commercial buildings.

Fire hydrant placement shall comply with the following minimum standards:

- Within 400 feet of non-sprinklered commercial buildings
- Within 600 feet of sprinklered commercial buildings
- Within 100 feet of fire department connections (FDCs) serving standpipe or sprinkler systems

Although the International Residential Code (IRC) functions as a stand-alone document for the construction of one- and two-family dwellings and townhouses, it does not govern the design or layout of emergency access or community-level fire protection infrastructure. Therefore, residential developments must also comply with the applicable requirements of the International Fire Code, including, but not limited to, those listed above concerning the design, construction, regulation, and maintenance of fire apparatus access roads and fire protection water supplies.

Planning Comments:

The applicant is requesting a six (6) month extension of the most recent approval of the variance approved by the Board at its August 4, 2025 meeting.

The Variance was approved subject to the following conditions:

- 1) Obtain a non-utility right-of-way use agreement to allow gallery columns to encroach into the right-of-way;
- 2) Obtain all required land disturbance, building, and sign permits; and
- 3) Full compliance with all municipal codes and ordinances.

This is the second extension request for this approval.

As justification for the request, the applicant states that they have encountered issues with the property survey after Subdivision approval. They are working to resolve issues with the title and subdivision.

VARIANCE EXTENTION CONSIDERATIONS

Standards of Review:

The Board is typically amenable to granting extensions when the applicant is working towards site development. Granting of such extensions are always in compliance with the findings of facts associated with the original approval.

The designation of an area with a FLUM land use category does not mean that the most intense zoning district consistent with that category is “automatically” assigned to a property. Instead, an area retains its existing zoning category until it is changed through a landowner-initiated rezoning application, or a rezoning that follows an area plan. This is because the FLUM is a long-term designation, while a change in zoning considers current conditions – such as market demands, availability of infrastructure, or impacts on the immediate neighborhood.

Zoning correspondence matrix

DOWNTOWN (DT)

Downtown is called out as a separate land use designation due to its distinct role, layout and fabric. As a land use district, Downtown is the ultimate mixed-use environment. Land development and redevelopment will emphasize variety, mixed uses, and unity of form within buildings or complexes. As the City's and region's center for commercial and service employment, Downtown supports intense development and a dynamic combination of uses: specialty and regional retail shopping and offices; business support services; urban housing at higher densities (starting at 10 du/ac); civic, educational and cultural destinations; entertainment options; and other public amenities including active and passive park space. The successful integration of a mix of housing types and densities will be critical to achieve a vibrant, active Downtown Mobile.

Development Intent

- Support new, redeveloped and adaptively reused buildings that frame attractive, human-scaled streetscapes, memorable and safe public spaces, bicycle and pedestrian-friendly streets and allow for convenient access to jobs, housing, and entertainment.
- Support infill development that provides better utilization of land, reduces surface parking, and is compatible with its surroundings.
- Building siting, form, and scale will vary by context within Downtown as defined in the zoning.
- Protect and enhance the historic and cultural heritage of the City.

Land use mix

Primary Uses

- Commercial
- Office
- Civic
- Residential, Multifamily

Secondary Uses

- Residential, Attached
- Residential, Single Family
- Parks

Housing mix

- Residential units above ground-floor retail
- Multifamily buildings
- Attached residential such as duplexes, multiplexes, and townhomes
- Single family homes

Character Example

Downtown includes a wide range of building types including high-rise offices, one and two-story mixed use buildings, various civic buildings, and historic single family homes. Detailed expectations for future development vary throughout Downtown and are contained in the Downtown Development District code.
