Development shall be designed to comply with the stormwater detention and drainage facility requirements of the City of Mobile stormwater and flood control ordinances, and requiring submission of certification from a licensed engineer certifying that the design complies with the stormwater detention and drainage facility requirements of the City of Mobile stormwater and flood control ordinances prior to the issuance of any permits;”*

- 5) placement of a note on the Final Plat limiting each lot to one curb-cut to Newman Road, with the size, design, and location of all curb-cuts to be approved by Mobile County Engineering and conform to AASHTO standards; and,
