South side of Halls Mill Road, 350'± West of Halls Mill Service Road.
1 Lot / 1.1± Acres

Dear Applicant(s) / Property Owner(s):

At its meeting on September 6, 2007, the Planning Commission approved the above referenced subdivision subject to the following conditions:

- 1) dedication of sufficient right-of-way to provide 35' as measured from the centerline of Halls Mill Road;**
- 2) the depiction of the 25' minimum building setback line, as measured from the right-of-way line after dedication;**
- 3) placement of a note on the final plat stating that the subdivision is limited to two curb cuts to Halls Mill Road, with the size, location, and design to be approved by Traffic Engineering and conform to AASHTO standards;**
- 4) full compliance with all municipal codes and ordinances; and**
- 5) subject to the Engineering Comments (*No storm water can be concentrated on adjacent property without release agreement. All storm water must tie to City of Mobile storm drainage system. It is the responsibility of the applicant to look up the site in the City of Mobile (COM) GIS system and verify if NWI wetlands are depicted on the site. If the COM GIS shows wetlands on the site, it is the responsibility of the applicant to confirm or deny the existence of wetlands on site. If wetlands are present, they should be depicted on plans and/or plat, and no work/disturbance can be performed without a permit from the Corps of Engineers. Must comply with all storm water and flood control ordinances. Any work performed in the right of way will require a right of way permit.*)**

After you have obtained all the necessary approval signatures and the plat has been recorded in the Mobile County Probate Office, **seven** copies of the recorded plat (including map book and page number) must be submitted to the Land Use Administration office. This procedure must be completed within one year, or the Tentative Approval will expire.
