Re: Case #SUB2007-00204
Highcrest Subdivision, Unit 1, Resubdivision of Lots 88 & 89
Northeast corner of Wentworth Court and Longleaf Drive.
2 Lots / 1.5± Acres

Dear Applicant(s) / Property Owner(s):

At its meeting on September 6, 2007, the Planning Commission approved the above referenced subdivision subject to the following conditions:

- 1) depiction of the 25' minimum building setback line along both street frontages on the final plat;**
- 2) revision of the plat to label each lot with its size in square feet, or provision of a table on the plat depicting the same information; and**
- 3) placement of a note on the final plat stating that each lot is limited to one curb cut, with the size, design, and location to be approved by Traffic Engineering and conform to AASHTO standards; and**
- 4) subject to the Engineering Comments (*Detention required for greater than 4000 square feet of impervious area. No storm water can be concentrated on adjacent property without release agreement. All storm water must tie to City of Mobile storm drainage system. It is the responsibility of the applicant to look up the site in the City of Mobile (COM) GIS system and verify if NWI wetlands are depicted on the site. If the COM GIS shows wetlands on the site, it is the responsibility of the applicant to confirm or deny the existence of wetlands on-site. If wetlands are present, they should be depicted on plans and/or plat, and no work/disturbance can be performed without a permit from the Corps of Engineers. Must comply with all storm water and flood control ordinances. Any work performed in the right of way will require a right of way permit.*)**

After you have obtained all the necessary approval signatures and the plat has been recorded in the Mobile County Probate Office, **seven** copies of the recorded plat (including map book and page number) must be submitted to the Land Use Administration office. This procedure must be completed within one year, or the Tentative Approval will expire.
