Re: Case #SUB2011-00073 (Subdivision)

Midtown Mobile Subdivision

1753 & 1763 Springhill Avenue, 117 & 125 Mobile Infirmary Boulevard and
1810, 1812 and 1814 Old Shell Road

(Southwest corner of Springhill Avenue and Mobile Infirmary Boulevard
extending to the North side of Old Shell Road 200'± West of Mobile Infirmary
Boulevard

Number of Lots / Acres: 5 Lots / 9.2± Acres

Engineer / Surveyor: Rester & Coleman Engineers, Inc.
Council District 1

Dear Applicant(s):

At its meeting on August 4, 2011, the Planning Commission considered the above referenced subdivision.

After discussion, it was decided to holdover this application until the September 1, 2011, meeting, with revisions due to the Planning Section of Urban Development by noon on Friday, August 19, 2011, to address the following:

- 1) **placement of the lots area size, in square feet, on the Final Plat or provision of a table on the Final Plat with the same information;**
- 2) **placement of the 25-foot minimum building line to be depicted along all street frontages;**
- 3) **compliance with Engineering comments: *“Development of this size will require compliance with FEMA and COM Floodplain Management requirements, which includes a No Rise or Flood Study. A LOMR has been submitted and forwarded to FEMA and a CLOMR is expected due to improvements to the downstream culvert. Proposed culvert shall be in keeping with the COM Capital Project Improvement criteria and shall match the downstream culvert construction including easement width. culvert. Need to depict the location of the recently constructed culvert. Also show location of existing culvert across the subject property. Approval of the size, location, and alignment of the proposed culvert and easements will be at the discretion of the City Engineer. There is a pipe discharging to the property from Old Shell Road Place that is not shown on the plans. Need to locate this pipe culvert and provide an easement. A valley ditch is required to receive and convey drainage from the adjacent lots of Old Shell Road Place to the culvert. Show Minimum Finished Floor Elevation on each lot on Plat. Must comply with all stormwater and flood control ordinances. Any work performed in the right-of-way will require a right-of-way permit in addition to any required land disturbance permit. Drainage from any dumpster pads cannot discharge to storm sewer; must have connection to sanitary sewer”;

- 4) compliance with Urban Forestry comments “Note: Preservation status is to be given to the 50” Live Oak Tree located on the West side of Lot 2. Any work on or under this tree is to be permitted and coordinated with Urban Forestry; removal to be permitted only in the case of disease or impending danger. Coordinate with Urban Forestry location and design of the proposed driveway to Old Shell Road in order to minimize impact to the root systems of existing Live Oak Trees. Coordinate with Urban Forestry location and design of the access, maneuvering, and parking along Spring Hill Avenue to minimizes the impact to the root system of the 50” Live Oak Tree on Spring Hill Avenue right of way that is not shown on the site plan”;**
- 5) placement of a note on the final plat stating that development of the site must be undertaken in compliance with all local, state, and federal regulations regarding endangered, threatened, or otherwise protected species;**
- 6) removal of the proposed Lot 5 and the inclusion of parcel R022907240004006 to be included into the proposed Lot 2; and,**
- 7) completion of the rezoning process.**
