Dear Applicant(s) / Property Owner(s):

At its meeting on June 5, 2008, the Planning Commission waived Section V.D.3. of the Subdivision Regulations and approved the above referenced subdivision subject to the following conditions:

- 1) the approval of all applicable federal, state and local agencies for wetlands prior to the issuance of any permits or land disturbance activities;**
- 2) certification via placement of a note on the plat stating that the property owner/developer will comply with all local, state and federal regulations regarding endangered, threatened or otherwise protected flora and fauna;**
- 3) the placement of a note on the final plat stating that any lots which are developed commercially and adjoin residentially developed property must provide a buffer, in compliance with Section V.A.7 of the Subdivision Regulations; and**
- 4) depiction of the 25-foot minimum building setback lines from all street frontages. *impervious area added since 1984 in excess of 4,000 square feet. Any work performed in the right of way will require a right of way permit*);**

After you have obtained all the necessary approval signatures and the plat has been recorded in the Mobile County Probate Office, seven copies of the recorded plat (including map book and page number) must be submitted to the Land Use Administration office. This procedure must be completed within one year, or the Tentative Approval will expire.
