

ALABAMA PECAN SUBDIVISION, PHASE 1

Engineering Comments: Must comply with the Mobile County Flood Damage Prevention Ordinance. Development shall be designed to comply with the storm water detention and drainage facility requirements of the City of Mobile storm water and flood control ordinances, and requiring submission of certification from a licensed engineer certifying that the design complies with the storm water detention and drainage facility requirements of the City of Mobile storm water and flood control ordinances prior to the issuance of any permits.

Fire-Rescue Department Comments: All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2012 International Fire Code). Projects outside the City Limits of Mobile, yet within the Planning Commission Jurisdiction fall under the State or County Fire Code (2012 IFC).

MAWSS Comments: No comments were provided.

The plat illustrates the proposed 4 lot, 85.4 ± acre subdivision which is located on the Southwest corner of Repoll Road and Airport Boulevard, and is located within the Planning Jurisdiction. The applicant states that the subdivision is served by public water and sanitary sewer (South Alabama Utilities).

The purpose of this application is to create 4 legal lots of record from multiple metes-and bounds parcels. It should be pointed out that the proposed 4 lot subdivision is a precursor for a 70 lot subdivision request that is also on the March 15th Planning Commission agenda. If this 4 lot subdivision is approved (Alabama Pecan Subdivision, Phase 1), then the 70 lot subdivision, if approved, would be Phase 1, of the Redlands Subdivision. As proposed, Lot 3 of the Alabama Pecan Subdivision, Phase 1, would be developed as a 70 lot subdivision for the Redlands Subdivision, Phase 1.

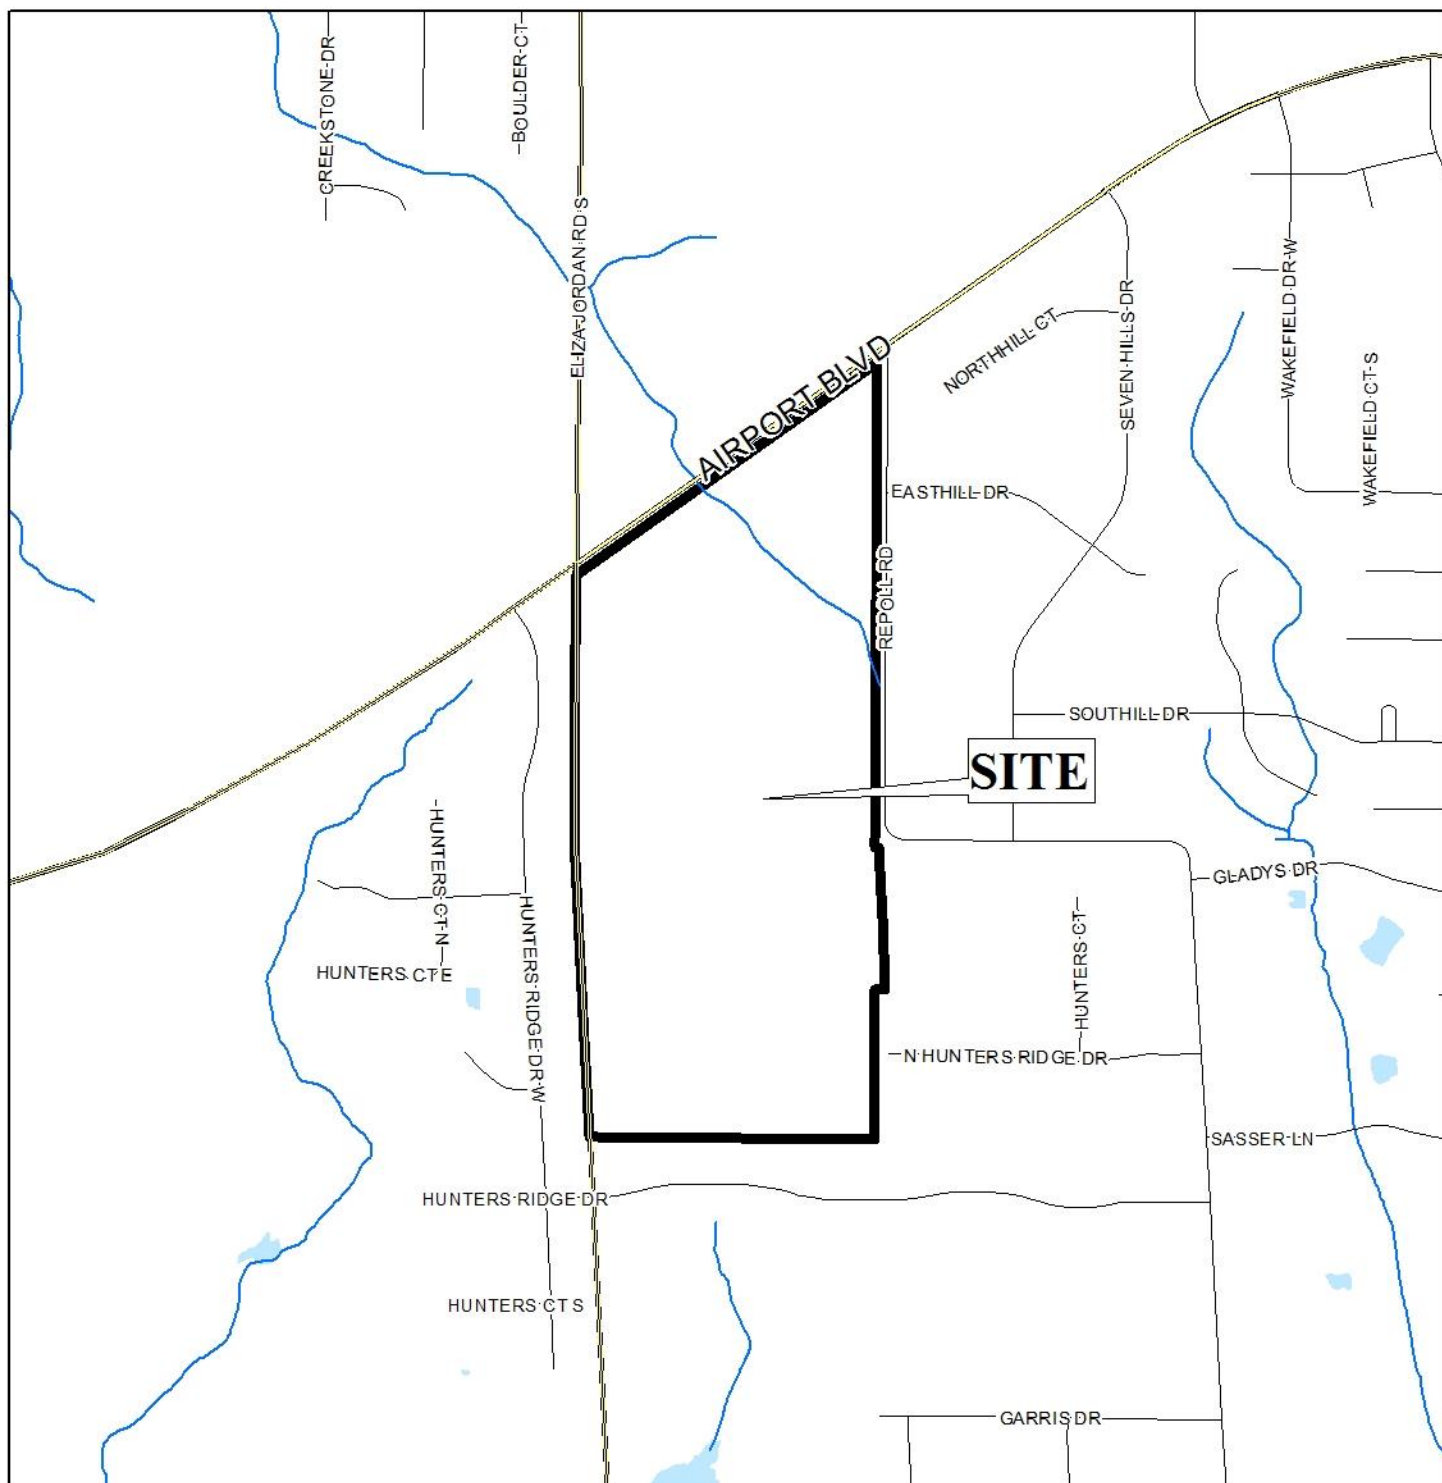

The site fronts Airport Boulevard and Repoll Road. Airport Boulevard is a proposed major street with a planned 100' right-of-way, as illustrated on the Major Street Plan. However, the plat indicates the right-of-way width of Airport Boulevard as 80'. Therefore dedication of any necessary right-of-way to provide 50' from centerline of Airport Boulevard will be required. The plat depicts Repoll Road as having a 60' right-of-way; therefore no dedication will be required.

The site is bounded along the west side by a proposed major street, a new connection linking Eliza Jordan Road to Johnson Road West. The right-of-way is proposed to be 100 feet, thus the plat should be revised to reflect dedication of the right-of-way.

Due to the impact the proposed major street may have on the proposed subdivision, it is recommended that the request be heldover until the April 19th meeting so that the preliminary plat can be revised.

Based on the preceding, the application is recommended for Holdover to April 19th with a revised plat reflecting the proposed Eliza Jordan Road major street extension to be submitted by Wednesday, March 28th.
