

**REZONING &
SUBDIVISION STAFF REPORT****Date: October 3, 2013****APPLICANT NAME**

City of Mobile & Charles G. & Hyun S. Storrs

SUBDIVISION NAME

Storrs Manor Subdivision

LOCATION115 Providence Street and 118 Catherine Street North
(West side of Providence Street, 280' ± South of Spring
Hill Avenue)**CITY COUNCIL
DISTRICT**

District 2

PRESENT ZONINGR-1, Single-Family Residential District & B-1, Buffer
Business District**PROPOSED ZONING**

R-1, Single-Family Residential District

AREA OF PROPERTY

1 Lot/0.6 ± Acre

CONTEMPLATED USESubdivision approval to create a single legal lot of record
from two metes and bounds parcels, and rezoning approval
to rezoning the site to one zoning classification (R-1,
Single-Family Residential), thus eliminate split zoning of
the site**It should be noted, however, that any use permitted in
the proposed district would be allowed at this location if
the zoning is changed. Furthermore, the Planning
Commission may consider zoning classifications other
than that sought by the applicant for this property.****REASON FOR
REZONING**Subdivision of land and changing conditions in a particular
area make a change in the Ordinance necessary and
desirable**TIME SCHEDULE
FOR DEVELOPMENT**

Immediate.

**ENGINEERING
COMMENTS**The following comments should be addressed prior to
acceptance and signature by the City Engineer:

- a. Provide all of the required information on the Plat (i.e. signature blocks, signatures,
certification statements, required notes, legend).

- b. Add a note to the Plat stating that a Land Disturbance Permit will be required for any site improvements on the property. These improvements may require storm water detention. The Permit submittal shall be in accordance with the Storm Water Management and Flood Control Ordinance (Mobile City Code, Chapter 17, Ordinance #65-007 & #65-045).
- c. Add a signature block and signature for the Owner (notarized), Surveyor, Planning Commission and Traffic Engineer.
- d. Provide and label the monument set or found at each subdivision corner.
- e. Provide the Surveyor's Certificate.
- f. Add a note to the Plat stating that the approval of all applicable federal, state, and local agencies (including all stormwater runoff, wetland and floodplain requirements) would be required prior to the issuance of a permit for any land disturbance activity.
- g. Add a note to the Plat that any work performed in the existing ROW (right-of-way) such as driveways, sidewalks, utility connections, grading, drainage, irrigation, or landscaping will require a ROW permit from the City of Mobile Engineering Department (208-6070) and must comply with the City of Mobile Right-of-Way Construction and Administration Ordinance (Mobile City Code, Chapter 57, Article VIII).

TRAFFIC ENGINEERING**COMMENTS**

Driveway number, size, location, and design to be approved by Traffic Engineering and conform to AASHTO standards.

URBAN FORESTRY**COMMENTS**

Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties (State Act 61-929 and City Code Chapters 57 and 64).

FIRE DEPARTMENT**COMMENTS**

All projects within the City of Mobile Fire Jurisdiction must comply with the requirements of the 2009 International Fire Code, as adopted by the City of Mobile.

MAWSS COMMENTS

MAWSS has water and sewer services available, but a Capacity Assurance application for additional sewer service has not been applied for. MAWSS cannot guarantee additional sewer service until a Capacity application is approved by Volkert Engineering Inc.

REMARKS

The applicant is requesting subdivision approval to create a single legal lot of record from two metes and bounds parcels, and rezoning approval to rezone a portion of the site from B-1, Buffer Business District to R-1, Single-Family Residential, thus eliminate split zoning and allowing for one zoning classification of the site.

The plat illustrates the proposed 0.6 ± acre, 1 lot subdivision and the applicant states that the subdivision is served by both public water and sanitary sewer.

The site is shown as part commercial and part residential on the General Land Use Component of the Comprehensive Plan, which is meant to serve as a general guide, not a detailed lot and

district plan or mandate for development. Moreover, the General Land Use Component allows the Planning Commission and City Council to consider individual cases based on additional information such as the classification request, the surrounding development, the timing of the request, and the appropriateness and compatibility of the proposed use and zoning classification.

As stated in Section 64-9. of the Zoning Ordinance, the intent of the Ordinance and corresponding Zoning Map is to carry out the comprehensive planning objective of sound, stable and desirable development. While changes to the Ordinance are anticipated as the city grows, the established public policy is to amend the ordinance only when one or more of the following conditions prevail: 1) there is a manifest error in the Ordinance; 2) changing conditions in a particular area make a change in the Ordinance necessary and desirable; 3) there is a need to increase the number of sites available to business or industry; or 4) the subdivision of land into building sites makes reclassification of the land necessary and desirable.

The applicant states that justification for rezoning is due to “Changes in conditions in a particular area make a change in the ordinance necessary and desirable” and / or “there is a manifest error in the ordinance.”

A portion of the site is bounded on all sides by properties zoned R-1, Single-Family Residential; however, due to the proximity to Old Shell Road, property zoned B-2, Neighborhood Business abuts the majority of the site’s Northern boundary and a property zoned B-1, Buffer Business lies to the West of the site across Catherine Street.

Subdivision review examines the site with regard to promoting orderly development, protecting general health, safety and welfare, and ensuring that development is correlated with adjacent developments, public utilities and services, and to ensure that the subdivision meets the minimum standards set forth in the Subdivision Regulations for lot size, road frontage, lot configuration, etc. Because the site is located within the Old Dauphin Way Historic District, development of the site must comply with historic district regulations and obtain approval from the Architectural Review Board.

In accordance with the Subdivision Regulations, the proposed lot is compliant with the minimum size requirements. The 25-foot minimum building setback line and the lot size in square feet are illustrated on the preliminary plat and should be retained on the Final Plat, if approved.

The site has frontage along Providence Street and Catherine St, both minor streets with curb and gutter. The preliminary plat illustrates a 40’ right-of-way for both streets; however, Section V.B.14. of the Subdivision Regulations requires minor streets with curb and gutter to have a minimum right-of-way of 50 feet. As a result, the applicant should provide dedication to provide 25 feet as measured from the centerline of both Providence and Catherine Streets. The lot size information and 25’ setback line should be revised on the Final Plat, if approved.

The site currently has one curb-cut along Providence Street and one curb-cut along Catherine Street. As a means of access management, a note should be placed on the Final Plat limiting the site to the existing curb-cuts, with any changes to the size, design or location to be approved by Traffic Engineering and conform to AASHTO standards.

Finally, the geographic area defined by the city of Mobile and its planning jurisdiction, including this site, may contain Federally listed threatened or endangered species as well as protected non-game species. Development of the site must be undertaken in compliance with all local, state and Federal regulations regarding endangered, threatened or otherwise protected species.

It is important to note that there appears to be a discrepancy in relation to a portion of the site's boundary. The area in question is located near the center of the proposed lot and is currently Zoned B-2, Neighborhood Business. A deed from 2003 was provided by the applicant; however, in 2007, the Springhill Food Mart Subdivision included this portion of land within its subdivision which is recorded on the Final Probated Plat. As a result, although ownership can be placed with the current applicant, this error must be resolved before this current request can proceed. Furthermore, the current subdivision request should be revised to include Springhill Food Mart Subdivision and the narrative regarding the subdivision and rezoning request should be revised to include B-2, Neighborhood Business.

RECOMMENDATION

Rezoning: Based on the preceding, the application is recommended for Holdover for the November 7, 2013 meeting. Revisions should be submitted before October 10, 2013 to address the following conditions:

- 1) Submission of revised narrative regarding the subdivision and rezoning request to include B-2, Neighborhood Business

Subdivision: Based on the preceding, the application is recommended for Holdover for the November 7, 2013 meeting. Revisions should be submitted before October 10, 2013 to address the following conditions:

- 1) Revised Subdivision application to add Springhill Food Mart Subdivision with additional labels, notification, & lot fees; and
- 2) Submission of revised narrative regarding the subdivision and rezoning request to include B-2, Neighborhood Business

Revised for the November 7th meeting:

The applicant has requested that the cases be heldover to the November 21st meeting, as they are still trying to resolve the property ownership issues for a portion of the site.

RECOMMENDATION

Rezoning: Based on the preceding, the application is recommended for Holdover until the November 21, 2013 meeting. Any revisions should be submitted as soon as possible.

Subdivision: Based on the preceding, the application is recommended for Holdover until the November 21, 2013 meeting. Any revisions should be submitted as soon as possible.
