## SUB-002894-2024

View additional details on this proposal and all application materials using the following link:

[Applicant Materials for Consideration](#)

### DETAILS

---

**Location:**

250 Dogwood Lane

**Subdivision Name:**

Gaillard Oaks Subdivision, Resubdivision of Lot 4

**Applicant / Agent:**

Wyatt Johnson

**Property Owners:**

Wyatt Johnson

**Current Zoning:**

R-1, Single-Family Residential Suburban District

**Future Land Use:**

Mixed Density Residential

**Applicable Codes, Policies, and Plans:**

- Unified Development Code
- Subdivision Regulations
- Map for Mobile Comprehensive Plan

**Proposal:**

- Subdivision approval to create one (1) legal lot of record from one (1) legal lot of record.

**Considerations:**

1. Subdivision approval with seven (7) conditions.

GAILLARD OAKS SUBDIVISION, RESUBDIVISION OF LOT 4

APPLICATION NUMBER 9 DATE April 18, 2024

## SITE HISTORY

---

The subject site is composed of Lot 4, Gaillard Oaks Subdivision, approved by the Planning Commission in 1988. The site has not been the subject of any previous Planning Commission or Board of Zoning Adjustment cases.

## STAFF COMMENTS

---

### Engineering Comments:

FINAL PLAT COMMENTS (should be addressed prior to submitting the FINAL PLAT for review):

- A. Provide all of the required information on the SUBDIVISION PLAT (i.e. signature blocks, signatures, certification statements, written legal description, required notes, legend, scale, bearings and distances) that is required by the current Alabama State Board of Licensure for Professional Engineers and Land Surveyors.
- B. Delete NOTE #13.
- C. Add a note that sidewalk is required to be constructed, and/or repaired, along the frontage of each lot, or parcel, at time of new development or construction, unless a sidewalk waiver is approved.
- D. Email a pdf copy of the FINAL SUBDIVISION PLAT and LETTER OF DECISION to the Permitting Engineering Dept. for review at [land.disturbance@cityofmobile.org](mailto:land.disturbance@cityofmobile.org) prior to obtaining any signatures. No signatures are required on the drawing.

### Traffic Engineering Comments:

Driveway number, size, location, and design to be approved by Traffic Engineering and conform to AASHTO standards.

### Urban Forestry Comments:

Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties [Act 929 of the 1961 Regular Session of the Alabama Legislature (Acts 1961, p. 1487), as amended, and City Code Chapters 57 and 65]. Private removal of trees in the right-of-way will require approval of the Mobile Tree Commission. Removal of heritage trees from undeveloped residential sites, developed residential sites in historic districts, and all commercial sites will require a tree removal permit.

### Fire Department Comments:

All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2021 International Fire Code). Fire apparatus access is required to be within 150' of all non-sprinklered commercial buildings and within 300' of all sprinklered commercial buildings. Fire water supply for all commercial buildings will be required to meet the guidance of Appendices B and C of the 2021 International Fire Code. The minimum requirement for fire hydrants is to be within 400' of non-sprinkled commercial buildings, within 600' of sprinkled commercial buildings, and within 100' of fire department connections (FDC) for both standpipes and sprinkler systems.

## Planning Comments:

The purpose of this request is to create one (1) legal lot of record from one (1) existing legal lot of record by amending a recorded minimum building setback line along a street frontage. The site is served by public water and sanitary sewer services.

The existing lot has frontage along Dogwood Lane and Old Shell Road, with a recorded 25-foot minimum building setback line along both streets. The applicant proposes to construct an addition onto the existing garage which would encroach into the recorded setback along Old Shell Road to within approximately 20 feet of the right-of-way line. This subdivision request is to amend the recorded 25-foot setback along Old Shell Road to 20 feet. As there is a recorded non-exclusive reciprocal easement for ingress and egress along the Old Shell Road (South) side of the property, the minimum building setback along that side cannot be reduced to less than 20 feet.

The preliminary plat indicates that both Old Shell Road and Dogwood Lane have variable right-of-way widths. As Gaillard Oaks Subdivision did not require dedication along these street frontages, no required dedication would seem in order for the current subdivision request. Gaillard Oaks was recorded with a compliant 25-foot corner radius curve at the intersection of the two streets. The right-of-way widths of both streets should be retained on the Final Plat, if approved.

The proposed lot exceeds the minimum size requirement of the Subdivision Regulations, and the lot size label in both square feet and acres should be retained on the Final Plat, if approved, or a table should be furnished on the Final Plat providing the same information.

As the site contains a recorded easement, the note on the preliminary plat stating that no structure shall be constructed or placed within any easement without the easement holder's permission should be retained on the Final Plat, if approved.

The site is within an R-1, Single-Family Residential Suburban district, which allows five-foot (5') minimum side street yard setbacks. Therefore, the requested 20-foot (20') minimum building setback line would be within the allowable limits.

## SUBDIVISION CONSIDERATIONS

---

### Standards of Review:

Subdivision review examines the site with regard to promoting orderly development, protecting general health, safety and welfare, and ensuring that development is correlated with adjacent developments and public utilities and services, and to ensure that the subdivision meets the minimum standards set forth in the Subdivision Regulations for lot size, road frontage, lot configuration, etc.

### Considerations:

Based on the preceding, if the Subdivision request is considered for approval, the following conditions could apply:

1. Retention of the right-of-way widths of Old Shell Road and Dogwood Lane on the Final Plat;
2. Retention of the lot size label in both square feet and acres on the Final Plat, or the furnishing of a table on the Final Plat providing the same information;
3. Retention of the note on the Final Plat stating that no structure shall be constructed or placed within any easement without the easement holder's permission;

4. Compliance with all Engineering comments noted in this staff report;
5. Placement of a note on the Final Plat stating all Traffic Engineering comments noted in this staff report;
6. Compliance with all Urban Forestry comments noted in this staff report; and,
7. Compliance with all Fire Department comments noted in this staff report.

**Zoning District Correspondence Matrix**

- Directly Related
- Elements of the zoning category are related to the future LU category, but with qualifications (such as a development plan with conditions)
- Land use category is appropriate, but the district does not directly implement the category (e.g., open space in an industrial district)

## MIXED DENSITY RESIDENTIAL (MxDR)

This designation applies mostly to residential areas located between Downtown and the Beltline, where the predominant character is that of a traditional neighborhood laid out on an urban street grid.

These residential areas should offer a mix of single family homes, townhouses, 2- to 4- residential unit buildings, accessory dwellings, and low- and mid-rise multifamily apartment buildings. The density varies between 6 and 10 du/ ac, depending on the mix, types, and locations of the housing as specified by zoning.

Like LDR areas, MxDR areas may incorporate compatibly scaled and sited complementary uses such as neighborhood retail and office uses, schools, playgrounds and parks, and churches and other amenities that create a complete neighborhood fabric and provide safe and convenient access to daily necessities.
