REMARKS

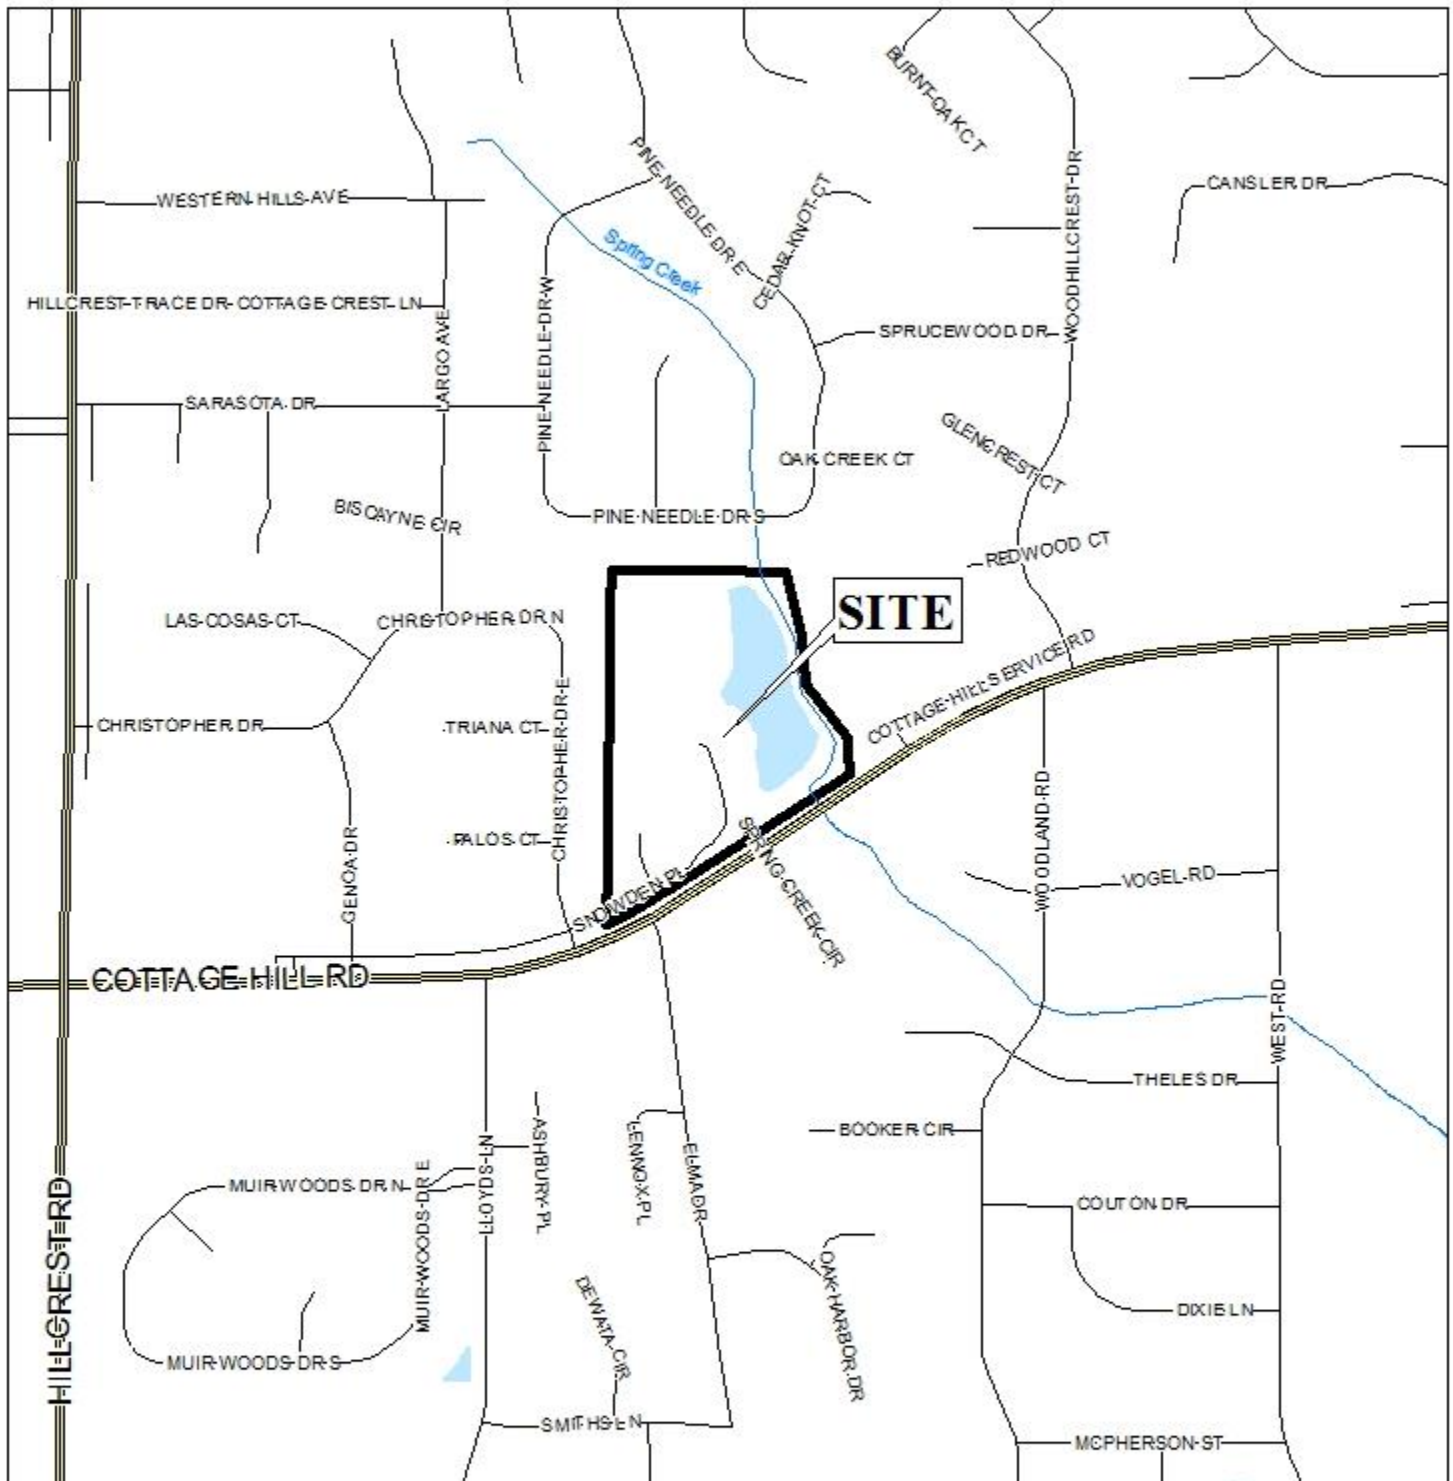

This is the second extension request since the Subdivision and PUD were approved at the Planning Commission's May 2, 2013 meeting. The applicant was granted an extension at the Planning Commission's June 5, 2014 meeting to amend a previously approved Planned Unit Development to change sideyard setbacks to 5-feet, and Subdivision approval to create 52 lots.

Regarding the request for an additional extension, the applicant states that they are "anticipating future development, and that construction plans have been submitted to City Engineering and are currently being reviewed." There have been no changes in conditions in the surrounding area that would affect the Subdivision and PUD as previously approved, nor have the changes to the Regulations affected the previous approval.

RECOMMENDATION

Based upon the preceding, it is recommended that the request for a one-year extension be approved; however, the applicant should be advised that any future extensions will be unlikely.
