

RANGELINE HAMILTON COMMERCIAL PARK **SUBDIVISION, RESUBDIVISION OF LOTS 6 & 7**

Engineering Comments: FINAL PLAT COMMENTS (should be addressed prior to submitting the FINAL PLAT for review and/or signature by the City Engineer):

- A. Provide all of the required information on the SUBDIVISION PLAT (i.e. signature blocks, signatures, certification statements, written legal description, required notes, legend, scale, bearings and distances) that is required by the current Alabama State Board of Licensure for Professional Engineers and Land Surveyors.
- B. Provide and label the monument set or found at each subdivision corner.
- C. Show and label all flood zones.
- D. Show and label the MFFE (Minimum Finished Floor Elevation) on each lot that contains an AE, V, or X (shaded) flood zone designation.
- E. Add a signature block for the Owner, Notary Public, Planning Commission, Traffic Engineer, and City Engineer.
- F. Provide the Surveyor's Certificate.
- G. Provide the Surveyor's and Owner's (notarized) signatures.
- H. Add a note to the SUBDIVISION PLAT stating that as shown on the 1984 aerial photo (FLIGHT 24 - #95) LOT A will receive historical credit of existing (1984) impervious area towards stormwater detention requirement per Mobile City Code, Chapter 17, Storm Water Management and Flood Control) as follows: LOT A – NONE.
- I. Add a note to the SUBDIVISION PLAT stating that a Land Disturbance permit will be required for any land disturbing activity in accordance with Mobile City Code, Chapter 17, Storm Water Management and Flood Control); the City of Mobile, Alabama Flood Plain Management Plan (1984); and, the Rules For Erosion and Sedimentation Control and Storm Water Runoff Control.
- J. Add a note to the Plat stating that the approval of all applicable federal, state, and local agencies (including all storm water runoff, wetland and floodplain requirements) will be required prior to the issuance of a Land Disturbance permit.
- K. Add a note that sidewalk is required to be constructed, and/or repaired, along the frontage of each lot, or parcel, at time of new development or construction, unless a sidewalk waiver is approved.
- L. Add a note to the plat stating that all proposed detention facilities, common areas, and wetlands shall be the responsibility of the Property Owner(s), and not the responsibility of the City of Mobile.
- M. Add a note to the plat stating that all easements shall remain in effect until vacated through the proper Vacation process.
- N. Email a pdf copy of the FINAL SUBDIVISION PLAT and LETTER OF DECISION to the Permitting Engineering Dept. for review at land.disturbance@cityofmobile.org prior to obtaining any signatures. No signatures are required on the drawing.
- O. After addressing all of the FINAL SUBDIVISION PLAT review comments provide the ORIGINAL (with all signatures except for the Planning Commission, Traffic Engineering, and City Engineer), one (1) copy, and a transmittal letter to the Engineering Permitting Department. They can be dropped off at 205 Government St. or mailed to PO Box 1827, Mobile, AL, 36633.

Traffic Engineering Comments: Lot is limited to two curb cuts with size, location and design to be approved by Traffic Engineering and conform to AASHTO standards. Any new on-site parking, including ADA handicap spaces, should meet the minimum standards as defined in Section 64-6 of the City's Zoning Ordinance.

Urban Forestry Comments: Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties (State Act 2015-116 and City Code Chapters 57 and 64). Private removal of trees in the right-of-way will require approval of the Mobile Tree Commission. Removal of heritage trees from a commercial site will require a tree removal permit.

Fire-Rescue Department Comments: All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2012 International Fire Code).

The preliminary plat illustrates the proposed 1-lot, 3.9± acre subdivision which is located at the North terminus of Dockside Drive, within Council District 4. The applicant states that the proposed lot will be serviced by public water and sewer systems. The purpose of this application is to create one (1) legal lot of record from two (2) existing legal lots of record.

The site has been given a Heavy Industry (HI) land use designation, per the Future Land Use Plan and Map, adopted on May 18, 2017 by the Planning Commission. The Future Land Use Plan and Map complements and provides additional detail to the Development Framework Maps in the Map for Mobile, adopted by the Planning Commission at its November 5, 2015 meeting.

This land use designation mostly applies to larger parcels primarily developed to high-impact industrial activity which is preferably removed from residential and commercial uses. Light industry, industrial business or heavy commercial lands may separate heavy industry from other land uses.

Heavy industrial areas include collection, treatment, and manufacturing processes which use raw materials, are distinguished by the presence of noise, vibration, and/or odors, and benefit from easy access to a multimodal freight transportation network. Certain types of heavy industry are characterized by low building coverage and activities that rely on large areas of outdoor storage of raw material stockpiles and/or waste-product disposal areas, storage tanks, pipelines, and transportation yards to handle the transfer of heavy materials. The outdoor storage areas should be screened as much as possible by the nature of the stored materials.

Land designated as HI may be underdeveloped due to the presence of wetlands on portions of the parcel. In these cases, the wetlands may serve to buffer surrounding uses from the potential impacts of the heavy industrial use. Undeveloped areas of HI parcels that have tree cover may be used as buffering between the heavy industrial use and other uses. Where buffers do not exist naturally, they should be provided as spelled out in the zoning and subdivision regulations. Open areas reserved for dredge disposal are also designated as HI and may contain wetlands.

In Mobile, port terminal facilities, docks, shipyards, drydocks, etc., are mostly owned by the State of Alabama. Although not subject to local zoning, these facilities are shown as heavy industrial uses in the FLUM.

It should be noted that the Future Land Use Plan and Map components of the Map for Mobile Plan are meant to serve as a general guide, not a detailed lot and district plan. In many cases the designation on the new Future Land Use Map may match the existing use of land, but in others the designated land use may differ from what is on the ground today. As such, the Future Land Use Plan and Map allows the Planning Commission and City Council to consider individual cases based on additional information such as the classification request, the surrounding development, the timing of the request, and the appropriateness and compatibility of the proposed use and, where applicable, the zoning classification.

Subdivision review examines the site with regard to promoting orderly development, protecting general health, safety and welfare, and ensuring that development is correlated with adjacent developments and public utilities and services, and to ensure that the subdivision meets the minimum standards set forth in the Subdivision Regulations for lot size, road frontage, lot configuration, etc.

The applicant states the following:

The owner needs to combine these two lots in a recorded subdivision into one legal lot of record for future development.

Rangeline-Hamilton Commercial Park Subdivision was approved as a 12-lot, 19.1± acre subdivision in 2004 when the site was in the County within the Planning Jurisdiction. The area was annexed into the City in 2009.

In accordance with the Subdivision Regulations, the proposed lot exceeds the minimum lot size requirement. As on the preliminary plat, the lot size label in both square feet and acres should be retained on the Final Plat, or a table should be furnished on the Final Plat providing the same information.

The proposed lot fronts Dockside Drive, a minor street with a 110'-diameter cul-de-sac fronting the subject site. The current requirement is for a 120'-diameter cul-de-sac; however, as the current diameter was the standard at the time of approval of Rangeline-Hamilton Commercial Park Subdivision, no dedication for further right-of-way should be required.

As on the preliminary plat, the 25-foot minimum building setback line along Dockside Drive should be retained on the Final Plat.

As per the Traffic Engineering comments, the lot is limited to two curb cuts with size, location and design to be approved by Traffic Engineering and conform to AASHTO standards. Any new on-site parking, including ADA handicap spaces, should meet the minimum standards as defined in Section 64-6 of the City's Zoning Ordinance. A note containing the Traffic Engineering comments should be placed on the Final Plat.

The site is currently vacant. It is important to note that development of the site will be required to fully comply with current zoning standards.

Based upon the preceding, the plat meets the minimum requirements of the Subdivision Regulations and is recommended for Tentative Approval, subject to the following conditions:

- 1) retention of the lot size label in both square feet and acres on the Final Plat, or the furnishing of a table on the Final Plat providing the same information;
- 2) retention of the 25-foot minimum building setback along Dockside Drive;
- 3) compliance with the Engineering comments: (*FINAL PLAT COMMENTS* (should be addressed prior to submitting the FINAL PLAT for review and/or signature by the City Engineer): A. Provide all of the required information on the SUBDIVISION PLAT (i.e. signature blocks, signatures, certification statements, written legal description, required notes, legend, scale, bearings and distances) that is required by the current Alabama State Board of Licensure for Professional Engineers and Land Surveyors. B. Provide and label the monument set or found at each subdivision corner. C. Show and label all flood zones. D. Show and label the MFFE (Minimum Finished Floor Elevation) on each lot that contains an AE, V, or X (shaded) flood zone designation. E. Add a signature block for the Owner, Notary Public, Planning Commission, Traffic Engineer, and City Engineer. F. Provide the Surveyor's Certificate. G. Provide the Surveyor's and Owner's (notarized) signatures. H. Add a note to the SUBDIVISION PLAT stating that as shown on the 1984 aerial photo (FLIGHT 24 - #95) LOT A will receive historical credit of existing (1984) impervious area towards stormwater detention requirement per Mobile City Code, Chapter 17, Storm Water Management and Flood Control) as follows: LOT A – NONE. I. Add a note to the SUBDIVISION PLAT stating that a Land Disturbance permit will be required for any land disturbing activity in accordance with Mobile City Code, Chapter 17, Storm Water Management and Flood Control); the City of Mobile, Alabama Flood Plain Management Plan (1984); and, the Rules For Erosion and Sedimentation Control and Storm Water Runoff Control. J. Add a note to the Plat stating that the approval of all applicable federal, state, and local agencies (including all storm water runoff, wetland and floodplain requirements) will be required prior to the issuance of a Land Disturbance permit. K. Add a note that sidewalk is required to be constructed, and/or repaired, along the frontage of each lot, or parcel, at time of new development or construction, unless a sidewalk waiver is approved. L. Add a note to the plat stating that all proposed detention facilities, common areas, and wetlands shall be the responsibility of the Property Owner(s), and not the responsibility of the City of Mobile. M. Add a note to the plat stating that all easements shall remain in effect until vacated through the proper Vacation process. N. Email a pdf copy of the FINAL SUBDIVISION PLAT and LETTER OF DECISION to the Permitting Engineering Dept. for review at land.disturbance@cityofmobile.org prior to obtaining any signatures. No signatures are required on the drawing. O. After addressing all of the FINAL SUBDIVISION PLAT review comments provide the ORIGINAL (with all signatures except for the Planning Commission, Traffic Engineering, and City Engineer), one (1) copy, and a transmittal letter to the Engineering Permitting Department. They can be dropped off at 205 Government St. or mailed to PO Box 1827, Mobile, AL, 36633.);
- 4) placement of a note on the Final Plat stating the Traffic Engineering comments: (*Lot is limited to two curb cuts with size, location and design to be approved by Traffic Engineering and conform to AASHTO standards. Any new on-site parking, including ADA handicap spaces, should meet the minimum standards as defined in Section 64-6 of the City's Zoning Ordinance.*);

- 5) compliance with the Urban Forestry comments: *(Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties (State Act 2015-116 and City Code Chapters 57 and 64). Private removal of trees in the right-of-way will require approval of the Mobile Tree Commission. Removal of heritage trees from a commercial site will require a tree removal permit.); and*
- 6) compliance with the Fire Department comments: *(All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2012 International Fire Code)).*
