

COUNTRY CLUB ESTATES SUBDIVISION, FIFTH UNIT, REVISED LOT 16

Engineering Comments: FINAL PLAT COMMENTS (should be addressed prior to submitting the FINAL PLAT for review and/or signature by the City Engineer):

- A. Provide all of the required information on the SUBDIVISION PLAT (i.e. signature blocks, signatures, certification statements, written legal description, required notes, legend, scale, bearings and distances) that is required by the current Alabama State Board of Licensure for Professional Engineers and Land Surveyors.
- B. Provide and label the monument set or found at each subdivision corner.
- C. Add a signature block for the Owner, Notary Public, Planning Commission, Traffic Engineer, and City Engineer.
- D. Provide the Surveyor's Certificate and Signature.
- E. Provide the Owner's (notarized), Planning Commission, and Traffic Engineering signatures.
- F. Add a note to the SUBDIVISION PLAT stating that a Land Disturbance permit will be required for any land disturbing activity in accordance with Mobile City Code, Chapter 17, Storm Water Management and Flood Control); the City of Mobile, Alabama Flood Plain Management Plan (1984); and, the Rules For Erosion and Sedimentation Control and Storm Water Runoff Control.
- G. Add a note to the Plat stating that the approval of all applicable federal, state, and local agencies (including all storm water runoff, wetland and floodplain requirements) will be required prior to the issuance of a Land Disturbance permit.
- H. Add a note that sidewalk is required to be constructed, and/or repaired, along the frontage of each lot, or parcel, at time of new development or construction, unless a sidewalk waiver is approved.
- I. Add a note to the plat stating that all easements shall remain in effect until vacated through the proper Vacation process.
- J. Provide a copy of the FINAL SUBDIVISION PLAT to the Engineering Dept. for review. No signatures are required on this drawing.
- K. After addressing all of the FINAL SUBDIVISION PLAT review comments by the Engineering Dept. provide the red-line markup, the ORIGINAL (with all other signatures) and one (1) copy of the revised original (signatures not required) of the revised Final Plat to the Engineering Department.

Traffic Engineering Comments: Lot is limited to its existing curb cuts with any changes to size, location and design to be approved by Traffic Engineering and conform to AASHTO standards.

Urban Forestry Comments: Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties (State Act 2015-116 and City Code Chapters 57 and 64).

Fire-Rescue Department Comments: All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2012 International Fire Code).

MAWSS Comments: No comments.

The preliminary plat illustrates the proposed 1-lot, 0.7± acre subdivision which is located on the East side of Jordan Lane, 480'± North of Wilkinson Way in Council District 5. The applicant states that the subdivision is served by city water and sanitary sewer systems. The purpose of this application is to amend the previously recorded front yard setbacks for a single legal lot of record.

The site has been given a Low Density Residential (LDR) land use designation, per the recently adopted Future Land Use Plan and Map. The Future Land Use Plan and Map complements and provides additional detail to the Development Framework Maps in the Map for Mobile, adopted by the Planning Commission at its November 5, 2015 meeting.

This designation applies to existing residential neighborhoods found mostly west of the Beltline or immediately adjacent to the east side of the Beltline.

The primary land use in the LDR districts is residential and the predominant housing type is the single-family housing unit, detached or semidetached, typically placed within a street grid or a network of meandering suburban streets. The density in these districts ranges between 0 and 6 dwelling units per acre (du/ac).

These neighborhoods may also contain small-scale, low-rise multi-unit structures at appropriate locations, as well as complementary retail, parks and civic institutions such as schools, community centers, neighborhood playgrounds, and churches or other religious uses if those uses are designed and sited in a manner compatible with and connected to the surrounding context. The presence of individual ancillary uses should contribute to the fabric of a complete neighborhood, developed at a walkable, bikeable human scale.

It should be noted that the Future Land Use Plan and Map components of the Map for Mobile Plan are meant to serve as a general guide, not a detailed lot and district plan. In many cases the designation on the new Future Land Use Map may match the existing use of land, but in others the designated land use may differ from what is on the ground today. As such, the Future Land Use Plan and Map allows the Planning Commission and City Council to consider individual cases based on additional information such as the classification request, the surrounding development, the timing of the request, and the appropriateness and compatibility of the proposed use and, where applicable, the zoning classification.

The proposed lot fronts Jordan Lane, a minor street requiring a 50' right-of-way width. The preliminary plat illustrates a 50' right-of-way width on Jordan Lane and, if approved, should be retained on the Final Plat.

A 35-foot minimum building setback line along Jordan Lane is depicted on the preliminary plat. The existing Subdivision, New Country Club Estates Subdivision 5th and 6th Units (recorded in 1954), required a 50' front yard setback. However, the adjacent property to the East however, is located 35' from the front property line and other units, specifically Unit One of New Country Club Estates, which adjoins the site to the West, according to the applicant, was recorded with a 35-foot setback. The applicant wishes to amend the previously recorded front yard setback to allow for an addition on the front of the existing dwelling. If approved, the 35' front yard setback should be retained on the Final Plat.

The proposed lot exceeds the 7,200 square foot minimum lot size requirements for lots served by public water and sanitary sewer systems. The preliminary plat does not provide the lot size in square feet and acres. If approved, provision of the lot size information in square feet and acres will be required on the Final Plat.

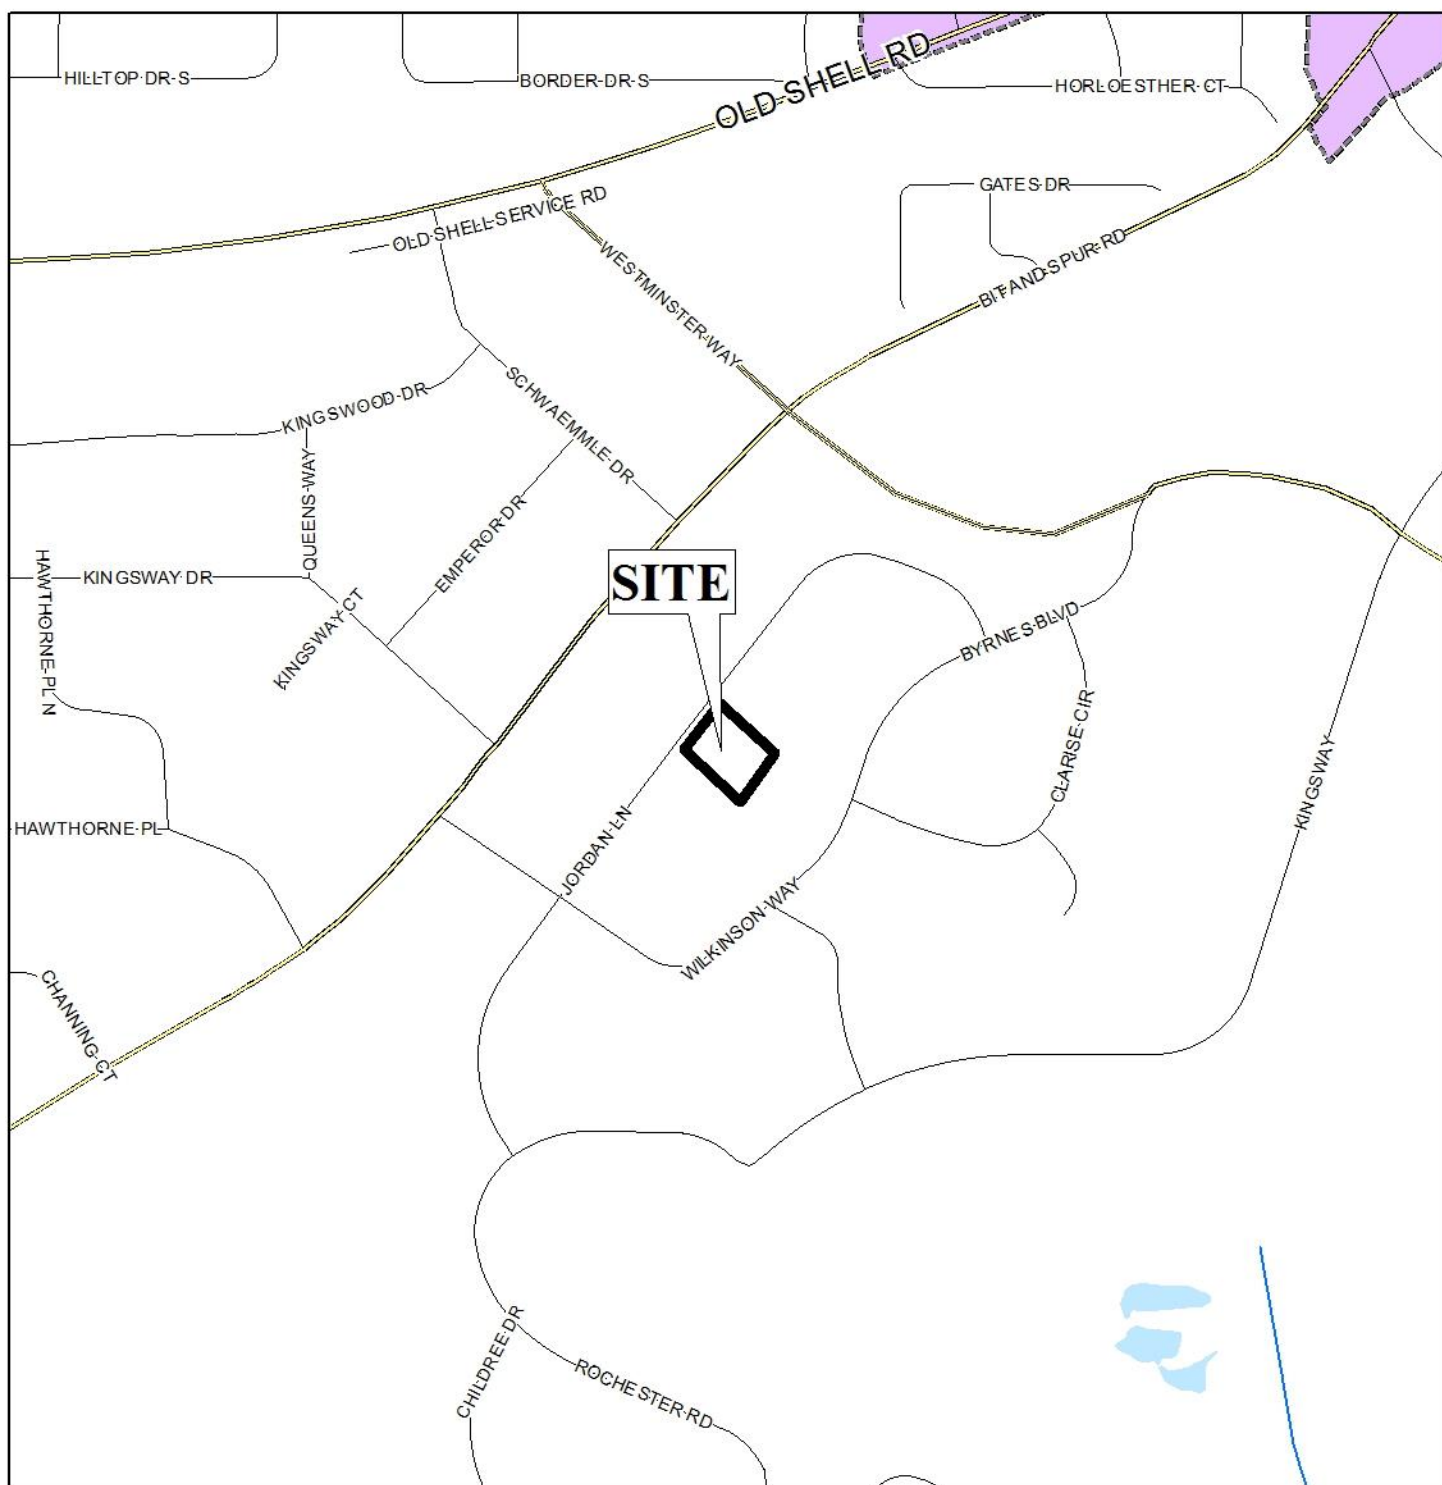

As a means of access management, a note should be placed on the Final Plat, stating that the lot is limited to one curb cut, with size, location and design to be approved by Traffic Engineering and conform to AASHTO standards.

Based upon the preceding, this application is recommended for Tentative Approval, subject to the following conditions:

- 1) Retention of the 50' right-of-way width to Jordan Lane;
- 2) Retention of the 35' minimum building setback line along Jordan Lane;
- 3) Provision of lot size information in both square feet and acres;
- 4) Placement of a note on the Final Plat stating that the lot is limited to one curb cut, with the size, design and location to be approved by Traffic Engineering and conform to AASHTO standards;
- 5) Compliance with Engineering comments: *(FINAL PLAT COMMENTS (should be addressed prior to submitting the FINAL PLAT for review and/or signature by the City Engineer): A. Provide all of the required information on the SUBDIVISION PLAT (i.e. signature blocks, signatures, certification statements, written legal description, required notes, legend, scale, bearings and distances) that is required by the current Alabama State Board of Licensure for Professional Engineers and Land Surveyors. B. Provide and label the monument set or found at each subdivision corner. C. Add a signature block for the Owner, Notary Public, Planning Commission, Traffic Engineer, and City Engineer. D. Provide the Surveyor's Certificate and Signature. E. Provide the Owner's (notarized), Planning Commission, and Traffic Engineering signatures. F. Add a note to the SUBDIVISION PLAT stating that a Land Disturbance permit will be required for any land disturbing activity in accordance with Mobile City Code, Chapter 17, Storm Water Management and Flood Control); the City of Mobile, Alabama Flood Plain Management Plan (1984); and, the Rules For Erosion and Sedimentation Control and Storm Water Runoff Control. G. Add a note to the Plat stating that the approval of all applicable federal, state, and local agencies (including all storm water runoff, wetland and floodplain requirements) will be required prior to the issuance of a Land Disturbance permit. H. Add a note that sidewalk is required to be constructed, and/or repaired, along the frontage of each lot, or parcel, at time of new development or construction, unless a sidewalk waiver is approved. I. Add a note to the plat stating that all easements shall remain in effect until vacated through the proper Vacation process. J. Provide a copy of the FINAL SUBDIVISION PLAT to the Engineering Dept. for review. No signatures are required on this drawing. K. After addressing all of the FINAL SUBDIVISION PLAT review comments by the Engineering Dept. provide the red-line markup, the ORIGINAL (with all other signatures) and one (1) copy of the revised original (signatures not required) of the revised Final Plat to the Engineering Department.);*

- 6) Compliance with Traffic Engineering comments: *(Lot is limited to its existing curb cuts with any changes to size, location and design to be approved by Traffic Engineering and conform to AASHTO standards.);*
- 7) Compliance with Urban Forestry comments: *(Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties (State Act 2015-116 and City Code Chapters 57 and 64).); and*
- 8) Compliance with Fire Department comments and placement of a note: *(All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2012 International Fire Code)).*
