

GARRETT ESTATES SUBDIVISION

Engineering Comments: Must comply with the Mobile County Flood Damage Prevention Ordinance.

The plat illustrates the proposed 2 lot, 12.9 \pm acres subdivision which is located on the West side of Lancaster Road, 3/10 mile \pm South of Laurendine Road. The subdivision is served by public water and individual septic systems.

The purpose of this application is to create a two-lot subdivision from a metes and bounds parcel.

Lot 1 exceeds the maximum width to depth ratio as recommended by the Subdivision Regulations; therefore, a waiver of Section V.D.3., would be required.

This site is located in the County, thus a note should be placed on the final plat stating that any lots which are developed commercially and adjoin residentially developed property must provide a buffer, in compliance with Section V.A.7. of the Subdivision Regulations.

The 25-foot minimum building setback lines are not shown but would be required on the final plat.

With a waiver of Section V.D.3. (width to depth ratio), the plat will meet the minimum requirements of the Subdivision Regulations and is recommended for Tentative Approval subject to the following conditions: 1) the placement of a note on the final plat stating that any lots which are developed commercially and adjoin residentially developed property must provide a buffer, in compliance with Section V.A.7. of the Subdivision Regulations; and 2) the placement of the 25-foot minimum setback lines on the final plat.
